

As Indiana Citizens, We want to speak out against proceeding 02-278. We are very satisfied with Indiana's Do Not Call Law and know that the effectiveness of this law will be diminished with preemption from the federal law. Other Citizens of Indiana, as well as us, do not want our law preempted. For sure, if any one calls us...even if they say they can...we give them hell. No one would sign this list if they wanted any calls...it's been a lot quieter since Indiana's law went into effect. (except for a brief time when some of the callers tried to pretend that the U.S. law superceded ours...after we told a few of them they got the message) Seems like these people would get the message that their calls are unwelcome when we sign the list in the first place...how can they think they can sell anything after making us mad with another call?
